THREE CENTS.

QUAY IS DEAD.

U. S. Senator from Pennsylvania Has Passed Away.

After a Lingering Illness, in His 71st Year.

CHRONIC GASTRITIS.

Coupled With Acute Inflammation of the Stomach.

Death Was No Surprise to Family and Friends.

Filled Many Offices in State and Nation.

Beaver, Pa., May 28.—Senator Quay is dead. The end came at 2:50. The immediate cause of Senator Quay's condition was exhaustion due to the inability to assimilate nourishment. Chronic gastritis and inflammation of the stomach is the foundation of the trouble.

DEMOCRATS ARE SORE.

Don't Understand Why Flambeau Club Was Ignored.

The members of the Democratic Flambeau club are mad. They feel that they have been shabbily treated. In that the Semi-Centennial committee has not invited the organization to participate in the fireworks display on the night of Topeka day, but has turned over the whole matter to the Republican Flambeau club.

An indignation meeting was held on Thursday night at the regular weekly meeting. Speeches were made and it was at first agreed to not even accept the invitation to march in the parade which was tendered to them by the Republican club. Cooler heads prevailed and it was finally agreed to let the matter pass over. From the speeches made at the meeting it was felt that they were denied a part in the programme of shooting off fireworks for political reasons, pure and simple.

One of the members put it this way this morning: "I think it is an outrage. Here we have been practicing fireworks a week drilling, and with fireworks to do to St. Louis to participate in the festivities attendant to the national convention of the Democratic club. But no, that is not the reason. It is nothing else but politics back of the whole business. They are doing nothing else but simply using the Semi-Centennial affair to carry the state for the Republican party this fall."

Members of the Democratic Flambeau club now has a membership of 250 and a drill team of 50 more. That they could give a creditable fireworks display is not to be doubted by anyone and there is little question but that the Semi-Centennial committee should have extended them an invitation to participate in the pyrotechnic display. It was probably an oversight, rather than a political whim.

LOST 3,000 MEN

Japanese Casualties in Kin Chou Battle Were Heavy.

The Russians Left 400 Dead on the Field.

FIFTY OF CZAR'S GUNS.

Fell Into the Hands of the Victorious Enemy.

Mikado's Forces Continue to Press Toward Port Arthur.

Washington, May 28.—The following cablegram from the foreign office at Tokyo was received at the Japanese legation today:

Tokyo, May 28.—The commander of the army attacking Kin Chou reports that a detachment of our troops consisting of infantry, artillery and engineers occupied Nan Kwan Ling on the morning of May 27. The enemy fled in the direction of Port Arthur after burning a railway station at Shan Shi Hill. The troops captured 50 guns, besides many other things. The number of the enemy's dead alone and left in the field amounted to 400. Our casualties including dead and wounded is estimated at 3,000.

Attack Tallen Wan. Rome, May 28.—According to a dispatch from Tokyo received here the Japanese have attacked the town of Tallen Wan. Their occupation of the junction of the Dainy railroad with the main Port Arthur line isolates Port Dainy.

Russians Gone From Dainy. New Chungking, May 28.—Morning—A dispatch from Tokyo received here says the Japanese have captured the town of Dainy. The Russian troops have been driven out of the town. The Japanese have captured 50 guns, besides many other things. The number of the enemy's dead alone and left in the field amounted to 400. Our casualties including dead and wounded is estimated at 3,000.

Chinese merchant just arrived who left Dainy five days ago, says the Russians have left the town which at the time of his departure had not been occupied by the Japanese. The latter were still engaged in landing troops at Kin Chou bay.

to be ready today and the former within twelve miles of Port Arthur. London, May 28.—A Tokyo correspondent of the Telegraph says he learns that the Japanese troops are now within 12 miles of Port Arthur and that the Russians suffered heavier casualties than the Japanese who have taken guns and other material and a few prisoners. He predicts further success, as Japan is now increasing her efforts in all directions.

Russia Feels Loss of Cannon. St. Petersburg, May 28.—P. M.—There is no attempt here to conceal the fact that the successful forcing of the neck of Kwan Tung peninsula proper is a practical end to resistance to the enemy until he reaches the actual fortifications around Port Arthur. Although there are many strong positions in the peninsula, the Russian authorities admit that the Russians can offer but little resistance and must now retire and make a desperate and undertake to defend themselves against a siege. Neither the army nor the general staff has any direct information. The Russian world, the admiralty and general staff are dependent entirely upon the enemy for news. Native reports, which may be of some value are, however, expected shortly.

While there is no disposition to question the main facts sent out officially from the Russian world, reports from Japanese sources are being received with caution. The impossibility of holding the advance positions around Kin Chou in the face of overwhelming odds has all along been admitted, but on account of the character of the position as well as its defenses the general staff can not but believe that the defense must have been heroic and the positions were only taken at a desperate and costly sacrifice and at a frightful cost. The earlier news was received in a cool spirit by both the public and the newspapers, but the latest reports that the Japanese captured 50 guns is confirmed it is sure that the effect will be much deeper and certain to be considered a severe blow. Until that report arrived the feeling was that the Russians had resisted to the limit of human endurance and had retired in good order. It will put a different complexion upon things, though it is conceivable here that if the Japanese operating force had been as strong as the Russian positions, the abandonment of the guns would have become necessary. This view, however, will hardly diminish the extent of the disaster.

Russians Failed to Rally. Tokyo, May 28.—It is doubted if the Russians will stand again north of Port Arthur. They have been driven from the field beaten and they failed to rally at Nan Quan Ling, where it was anticipated that a second stand would be made.

The desperate onslaughts of the Japanese on the heights of Nanshan were telling. The Russian concentration in trenches there. A complete search of this field is expected to show a greater number of dead.

Nanshan was captured yesterday morning by a force of infantry, artillery and engineers under the command of General Nakamura. The main Japanese force was concentrated in the villages around Nanshan. The soldiers were greatly fatigued as a result of the constant fighting but they showed much spirit upon the new operations.

A force of Russians held San Chilly station, which is northwest of Dainy, but the Japanese drove them from the station and retired in the direction of Port Arthur. The estimate of the Russian casualties is 12 blue jackets seriously wounded in the sinking of the Japanese battleship Hatause off Port Arthur. About 500 men and their lives on the cruiser Yoshino which was rammed and sunk by the cruiser Kasuga on the night of May 27.

The Russian authorities have secured two million pounds in coin by French steamer.

Japanese Losses on the Sea. Tokyo, May 28.—A. M.—Recent figures show that 41 non-commissioned officers and 373 blue jackets were killed and drowned, seven officers, 13 non-commissioned officers and 50 blue jackets were seriously wounded in the sinking of the Japanese battleship Hatause off Port Arthur. About 500 men and their lives on the cruiser Yoshino which was rammed and sunk by the cruiser Kasuga on the night of May 27.
